

Biotechnologist/Biologist

Agomab is a young and dynamic biotech company developing medicines for patients with inflammatory and fibrotic diseases, including Crohn's disease. We are headquartered in Gent with offices in Antwerp and Barcelona; and laboratory facilities in Turin and Touro.

We are currently looking for an experienced Biotechnologist/Biologist to expand our Antibody Discovery team in Turin, Italy. The role will have responsibility for conducting *in vitro*/*in vivo* studies with our panel of growth factor-mimetic agonistic antibodies, as well as coordinating internal and external research in line with the discovery programs of the company.

Who are we?

We are a highly motivated team, valuing ownership, trust, humility and courage in everything we do. We focus on pioneering science and getting results within an environment of continuous self-improvement.

Who are you?

- Degree in Biotechnology/Biology, both Master and PhD level considered
- Familiarity with the major laboratory techniques of molecular biology, biochemistry, immunology and cellular biology
- Ability to carry out research/discovery activity independently and to supervise research staff
- Experience in *in vivo* preclinical testing is a plus
- Good level of English, written and spoken

What we offer

- Opportunity to develop pioneering science in a young biotech company
- Challenging and innovative work environment as part of a driven team
- Role based at the Molecular Biotechnology Center (MBC) campus in Turin, Italy
- Competitive salary and benefits

Interested in having a high-impact contribution in a growing company? **Send your application to HR@agomab.com**, to the attention of Paul van der Horst, Chief Business Officer, and join the team! Please be aware, AgomAb is not working with any recruitment agencies so please reach out directly.
